RUSSELL HARRISON.

The Young Journalist Arrested in New York.

CHARGED WITH CRIMINAL LIBEL.

He Refused to Make a Personal Apology to Ex-Governor Crosby.

A STATEMENT BY THE DEFENSE

20. An Explanation as Viewed From a Helena Standpoint-The Man Who Reported the Matter to Orosby

New York April 11—Russell Harrison was arested this afternoon in his office in Judg. Potter a saidling, on a charge of having published in the found Lies Stock Journal an article taken from a burdle barer accusin, Governor John S Crosby,

its publication

CROSSEY & COMPLAINT

In his complaint Groups introduces the article printed which is of rither a scathing nature. It was originally written for the Buffello raper by its Washington correspondent who was afterwards incharged for having written it. The matter complained of bears reference to the alleged juestionable acts of Crossby while governor of Montana and concludes by alinging the thett of diamonds from a lody in Washington. The complaint closes with the diamond for \$100.00 from Mr Harrison, with the diamond for \$100.00 from friming libel.

mistart closes with the her alleged manicious and mr Harrison, and costs for alleged manicious and mr Harrison, and costs for alleged manicious and mr Harrison, and accompanying the complaint to crossly seeks to show cause for the hatrd of him on the part of Harrison on states that siter he had resigned the position of store and was acting as first assistant posterior and was acting as first assistant posterior general she defen lant (Harrison) removed Major general she deen lant (Harrison) removed Major from a postum in the assay office at Helena without making any charges against him Through the influence of Crosby Willins was refustated and he alleges that this created an animestry on the he alleges that this created an animestry on the

THE NEWS IN HELENA.

sgreement arms between the manager and the ceditor and Fulgrove a connection with the neper was severed. He had keep conginal copy which McGutcheon had furnished for publication and this he formanded to trosby. The hasts for Crosby a soit is believed to be founded upon McGutcheon a editorial comment and not upon the chipping from the Builblio paper. Harrison's friends are andignant over the action of Fulgrove in sending the information to Crosby He is in charge of the public library here and a strong effort is said to be making to outs him in consequence of the course, he has followed.

TO TREIGATE ARID LANDS

WASHINGTON April 11—Major Powell director of the geological surrey has mapped out the work which will be performed during the coming summer in regard to the investigation of what can be accomplished by the irrigation of the and lands of the West Major Powell says be intends to use the \$250,000 appropriated by congress to the best postible ad variage. His work during the coming summer, which will be mainly experimental. He will surrey a fit be pointed which it none. The storage capacity of the points which is none. The storage capacity of the points which is none. The storage capacity of the points which is none with the fit of the distribution of water will be anneyed will be received with be extensived and the survey is alread; in a fit of the Arkansas in Colorado. This survey is alread; in progress. A very large amount of land will be reclaimed under this system.

Busides this examinations will be made and surveys innegurated along the Snike river in Idaho. He says more or less exploration will be made in every state and territory where irrigations of the government in the matter.

Mijor Powell will accumpany the committee appointed by congress our result for in the matter.

Migor Powell will accumpany the committee appointed by congress our result from the matter the first of August. Brief Outline of the Plans of Mojor Powell

YELLOW PEYER PREVALENT

The U S Consul General at Rio de Janeiro Reports an Alarming Condition. Reports an Absenting Condition.

THE ARMES COURTMARTIAL

Defendant Selects One of Its Members as His Counsel.

Washington, April 11—The courtmartial to try Captain Armes for conduct unbecoming on officer met this morning. In response to a quistion as to whether he had any objection to the composition of the court, Captain Armes replied in the negative but suggested that the cart had been placed before the house, that not he, but Captain Bourks

and Colonel Glisson who mide the charges against him, should be standing upon treat lim, should be standing upon treat. When the court causembled defendant an nounced that he had solected Capitain Knox of the First cavelry as a member of the court martial it was neces sar; that he should first be relict to the same that he should first be relict on the arrangement and Capitain knox was relieved by special order on the standard capitain knox was relieved by special order the stated that he was not prepared immediately to proved in the case and court adjourned until to morrow.

TOO SWEEPING IN ITS TERMS The Oklahoma Proclamation Kept Out the Department Officials

Department Officials

Washington April II — It appears that the president's proclimation opening a portion of the Okiahoma tands to settlers was more sweeping in its terms than was intended in the matter of excluding persons from extering upon the lands be fore the date samed in the proclimation. Under its terms the army officers have been compilled to keep out the officials of the interior department whose duty it is to provide for the extablishment of new land offices. To relieve those officials, an order was made to-day by the war department for their admission into the territory.

A concession to settlers.

partment for their admission into the territory A concession to services. Washington April 11.—In aniswer to an inquiry from the secretary of war on behalf of the large number of persons contemplating settlement in Okiahoma saking if permission is given to the control of the

sack to kaisse or over into the Oklahoma lands.

The secretary, in another part of the letter sax that he deems that the settlers are entitled to as much consideration as has been given to the citilement and others hereafore who have been permitted to traver through this outlet.

It is urged upon the secretary among other reasons for granting this permit that the settlers coming through to Chickasaw and other Indian lands are gathering on the immediate borders of the secretary who must be allowed under this permit until the permit of the content of the secretary who must be allowed under this permit until the actions and allowed under this permit until the secretary and instructions shall have-been received by the military having charge of the matter.

BEECHER AND BROOKS INDICTED

Eleven Charges Against the Former, and Twelve Against Quincy A.

BOODLE FLOWED LIKE WATER

The Government and Vessels Swindled Out of Many Thousands-A Small Fortune Fernd Concealed About the Building

Pour Townsend W. T. April 14.—The United States gran I jury have found twenty five indictments against Wm. Barned ex special deputy collector eleven against Herbert Becker extressury again and twelve against Quincy A. Brooks for straining from the government. The interest has been intense for several days regarding the development and the findings have caused intense excitement especially as Harned.

has so many friends

The records and accounts have been thoroughly overhauled and presented to the grand juny the The records and accounts have been thoroughly overhauled and presented to the grand jury the first time in many years by government officials especially sent out from Washington by the department to make personal investigations of the many charges preferred by the press and public.

Liest January Leshie Culling press and public.

Liest January Leshie Culling press and public.

Liest January Leshie Culling from the first official and Li Jupton first undited for ment commenced their investigations. Spending the commenced their first sequents of press and dismissed Harned The records were negligently kept. The records of books were examined, going as far back as April

Discoveries of Crooked Press.

The first thing found was that vessels were overcharged in entrance and clearance, and private receipts issued. The government receipts came out of what was called the blue book wany of which were destroyed and white receipts issued instead. By this method vessels were avoided out of small sums amounting to a few dollars each which aggregated to many thousand dollars per year.

A novice could explain this questionable operation the department properly filled but not provide the payer and the records was found where the payer are defined in some instances many hundreds of dulled of in some instances many hundreds of

THE SCUIL OF THE MONKOE DOCT TINE. The Curconian recently was obliged to defend its con truction of the Monrae doctine against the views of a very intuligent correspondent, who dissented from 1 s definition of the Edmunds Panama resolutions as sound doctrine, but a new departure and advertable on the piles that it was the at defendable on the plea that it was the Morror doctrine The accuracy o. The Morror doctrine The accuracy o. The Gargorya's history of the Mouror dectrine and its limitations is verified by an actule in the April Forum entitled. The Scope of the Morror Division. The accuracy ratios of the Monroe Ductrine" The popular idea of the ritory upon citter American continent by any ments v hatsoever be it by conquest wountary cession treaty stipulation pur-chase, or even by succession through family But the following extract from

sions, the minustion of the Monroe coctrine sted clearly to colonization founded the United States held time i o rightsiby pur chase or otherwise could be acquired by European nations upon either of the Amer-lean continuits Woolsey's 'International Law' is quoted in defense of this view is To lay down the principle that no political sys-

blatant approrters of the Mouron doctrine yelled Fifty four forty or fight? but ulti-mately we conceded to the British govern-ment all the territory north of the 19th pur firm was the policy of 'inhibition, first

In the presidency of John Quiney Adams the house of representatives refused to make of the African Methodist church. The ultradies a proposition for a congress at I main and by parsing a resolution declaring shat the United States ought not to become a proposition of a become a proposition of a congress at I main and by parsing a resolution declaring shat the United States ought not to become a purpose of preventing the interference of the purpose of preventing the interference of any or the I uropean powers with their independence or form of government or to any compact for the purpose of preventing colouration upon the continent of America. Of course under the Monroe doctrine there is not a shadow of just fixed on for any interference with the Panama or any other trans istimina i citial. Panama or any other trans istimina i citial. This is must be a proposed to the first state of the short of the purpose of preventing to the first state of the purpose of preventing to the short of the purpose of preventing to the first state of the short of the purpose of preventing to the purpose of preventing to the first state of the short of the purpose of preventing to the first state of the short of the purpose of the purpose of preventing to the first state of the purpose of preventing to the first state of the short of the purpose of preventing to the first state of the short of the purpose of preventing to the first state of the short of the purpose of preventing to the first state of the short of the purpose of preventing the interference of the first state of the short of the purpose of preventing to the first state of the short of the purpose of preventing the interference of the first state of the state of the short of the purpose of preventing to the first state of the short of the purpose of preventing to the first state of the short of the purpose of preventing to the first state of the purpose of preventing to the first state of the short of the purpose of preventing the interference of the first state of the

dent Clerchard in consure of officiality in thanking and of the purmitions activity of government employes. Hence it was, of in office a man who made points al merchan due of the increasities of the soldiers of the republic wounded in its service. But let 10 reputer woman in the saviver better to man judge the late un amenter too harshly. It is well to remember that much of his time was occupied in vetong pension bits und a president can not reaso tilly be expected to give ad of his firm to the pension depart. give all of his tirm, to the benefit again, much, A for Certical back he should be ashimed of the major to the help reduced upon a runou jecting street by the nog too bureau intrust d to i in most pointed has chine when he knew low the up light non partism soul of his chief lacked the jer nuclous activity interpretate from such a course.

It is fortunate however that the cu in re-Insisted that Cleveland achieve to the one

territory, had discharged the dunes of this office efficiently and acceptably for two years. In presenting his successor, Gover nor Moore for inauguration in displayed true political patiosophy remarking in the course of a brief and pleasant speech upon the first that he as a representative of a democratic chief magnitrate had in his term occupied the position from which, in the you il and accepted order of things, he was

Judge Albion W Tourges in the April Forum puts the que tion formbly, Shall White Minorities Rule? The answer to this question concerns two classes of people in a question concerns two enaises of people in republic whose laws guarantee equality of political rights and privileges to all. Both whites and blacks speak the same language, profess the same religion owe allegance to the same government. The black has been the bondman of the white for 250 years he has been a free man for "I years and a citizen for "I years and a citizen for "I years and a citizen for "I years and blacks of the South and theen unites and blacks at the South and yet flicit relations between the raise are no for our at the South and are not specifically prohibited. Professing the same religion they do not worship in the same edifice, do not worship in the same carries of the they do not worship in the same edifice, do not strike at the same alter or partake of the same a seriments. No white woman can have reoloved woman for a friend without losing calte with her own people, and a single drop of colored blood makes its possessor

the situation between the races at the South, and its veracity cannot be impeached. Three-fourths of the tolered population are found in Virginia, North Carolina, bouth found in Virginia, North Carolina, South Carolina Georgia, Alabama, Florida Louis into and Musassippi In three of these states, South Carolina, Mississippi and Louisiana, there are one-fifth more blacks than whites in churches, schools and accept the races are absolutely distinct. Politically the white race is dominant. In the cight states named there are less than time colored race increases faster than the white race in these states than the white race in these states. The whites of these states are more migratory than the nagroes. The colored race will rever emigrate in great numbers, and white rever emigrate in great numbers, and while immuration will not flow into these states until political and social toleration is as sured. In 1880 there were 30 000 fewer

the white and thinks at the South. The South counts the negro is a constituent but distranching thin as a critical. This has been scentral by violence or fraud, and its practical result is that the vote of a white practical result is a that the vote of a white county is worth the practical property. man in bouth Carolina 14 made just two and one half times spotential in national offairs votes in South Carolina are colored and are nul ified by fraud to help a white inmority to rule. Will the North always endure this

and if this is one they will not happle about the coar. To use the argument of those who urge that the searce of congressmen be raised. The country can flord it?

Governor Pennover is notably opposed to commissions. In conformity with this opposition he sought to about the state rulroad commission, the same being in his judg ment a superfluit. The lag-slature would not be realth, so the governor, with the idea frequently developed by unreasonable peo-ple dots in red upon a double do e of that agen twinch he had vanny protested to test the state circuit court and interfere y h his grim cityon must be deciding in if for the the state shall not pay for the in if he ice or hi whim. There seems to be nothing in this line cit for his excellency but it fill back upon his trainiph over the legis latare and the people of lordand in the double acts of the water but

have deceived the guideless civil service reformer for another four years

Hon Engene bemple who retired Thes day from the presementally of Washington

territory, had discharged the duties of that climed to think that the chief of the weather office efficiently and acceptably for two bureau is one of the angle is bureau is one of the e who learn nothing by experience but for the fact that he shows no disposition to make another attempt to

Abram G de, who was the oldest surviving ettler of Chicago, died at that place a few days ago. He was corn in Massachusetts in 1793, and came to Chicago in 1835. The pop-ulation of Chicago was then about 700. Mr. Gale of ened the first ment market in the

NALY DEPARTMENT'S DEFENSL

Why the Offer of Coal From Australia was Not Accepted.

Washington April 11—Respecting the analy denoted for the faction of the stature to accept the offer coin Australia for the American April Commodore Sently of the control of the stature to accept the offer coin Australia for the American April Commodore Sently of the control of the con Whether of Coal From Australia Was

Not Accepted.

Washington April 11—Respecting the
Ban Francisco di pitch criticizing il e mays
department for its failure to necept the offer
of coal from Australia for the American
men of war at Apa Commodore Sendy of
the burern of equipment, said "We don't
yet know that the loss of vessels at Apa was
due to a lack of coal My latest advices are
dated the last week in January and show
there was a supply of coal on the beach
amounting to 160 tons. Nine weeks ago the
Monohgabela sailed from San Francisco to
Apa with 600 tons of coal, which we had on
hind at the Mare islund navy yard it was
not therefore regarded as necessary to buy
Weilington coal at 160 per ton when we had
coal of our own which had been bought and
paid for. Wellangton coal will not bear exposure to the weather, and it would not be
wise to lay in a stock of it in a place where
we have no provision for shelter"

Action Against Montana Timber Land
Trespossers Suspended.

Washington, April 11 - Secretary Noble,
in a letter to the attorney general has requested that the Unit of States attorney for
Montana be directed to suspend action, civil
or criminal, against the Missoula Company
formerly the Montana Improvement Compins and the Northern Pacific railroad, for
tamber freepass on the public lands in Montana until the same can be investigated with
a view to a dispuisal as recommended by the
lunted States district attorney. The
innocant of lumber myolyed is over 40,
600-600 feet besides a large amount
of cordwood and railroid ties. This action
is taken it is understood upon information
that it will be extremely difficult it not al
together impossible, for the government at
the late day to secure sufficient evidence to
munitain these sauts?

HE SKILLED THE COUNTRE.

HE SKILLED THE COUNTRY.

What Became of a Witness Who Was Warted to Testify A. alast Parnell. What Recame he a winess without Wardel to Testify A aliast Parnell.

New YORK, April II — Thomas Walsh one of the men whose promises of startling revel thous and in a scimmating documents or Richard Webster relied on to prove his case, grained I track and his colleague is now in this city. He shipped away from 1 ondoor the might tore he wis wanted. He dileges that the agents of the Irrescontinued to urge he me to make the die to ure against Partell. I mailtake went that sy tenatre dip to work them, and after getting all the money out of them he could skipped to I rance then to this country.

TASSLAGER AGENTS MELT.

The Cystem of Paying Commissions to be New York Actual II—Als meeting of the trunk line 1 is not rights to-day it was agreed that the visual of paying commission to pips not agents to abolished. The agreement 1 to 10 into cliect atomic. This brought about the removed of b b P is son as chairman of the presence commutate. The Billimore & Ohio and once it wo other roads objected to him and would make no concessions till he wasdropped. Lucius Put the of the Canadian Pacific, was appointed to the viscance.

What Scott's Emulsion Has Done!

Over 25 Pounds Gain in Ten Weeks Experience of a Fromment Citizen. THE CALIFORNIA SOCIETY FOR THE SUITERSSION OF VICE, SAN FRANCISCO, JULY 7th 1886

I took a severe cold upon my chest and lungs and did not give it proper attention; it developed into bronchitis, and in the fall of the same year I was threatened with consumption. Physicians ordered me to a more congenial climate, and I came to San Francisco. Soon after my arrival I commenced taking Scott's Emulsion of Cod Liver Oil with Hypophosphites regularly three times a day. In ten weeks my avoirdupois went from 155 to 180 pounds and over; the cough mean-time ceased. CR. BENNETT SOLD BY ALL DRUCCIPTS

MAYOR DILARRAPTUT'S VIEWS. What H: Has to Say About the Passage of the

Mayor Delashmont arrived home posteriay morning from a visit to Gaiffernia. In masser to the impairty of a reporter, he said he had learned a while in san Francisco of the action of the council in passing the ordinance authorizing a contract with the Willamette Falls Electric Company for budden than its cone he year. for lighting the city, ever his veto.
"What do you think of the reasons given for

TRADECONTINENTAL STREET RAILWAY. A Petition in Circulation Asking to Have the Franchise on I wenty-first Street Annualled.

A petition is being circulated asking the council to annul the innerine allowing the Transcontinuital Siret Releasy Company to build their road down North Twenty-first extrect from G to E. Fersons circulating the petition claim that the rangony laws forfeited their franchise, but Mr. Tyler Woodward, superintendent of the company, says took is not so, as the franchise calls for the conjection of the road within one year after the street is improved by planking or manalemizing. Just how a franchise in the annulled under the circumstances & is difficult to imagine. The company have boint stables in imagine. The strength of this franchise at a rest of \$16,000, and will health early care to abundon the 100 to 10

TROTTERS HOME STOCK PARM,

For beauty, for conduct, for improvement of the complexion, use only Pozzoni's Powder; there i nothing equal to it.

Harmertor excellence proves in militors of homes for more than a querier of a contary. He used by the United states government. Endorsed the means of the great universities as the attrooped of the man of most healthing. For Price's tream Enting Powder does not contain Ammonia, Lifte of a time. Seal only in each. PRICE BAKING POWDER OF

ABSOLUTELY PURE.

For quick raising, the Boyal Baking Powder is superior to all other leavening egents. It is absolptely pure and wholesome and of the highest leavening power. .. is always uniform in strength and quality and never falls to make light, sweet, most polarable and notifitive food. Bread, biscuits, muffus, cake, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. H. A. Matt, U. S. Government Chemist, after examining officially he principal balling peak hers of the country, reported :

"The Regal Diving Powder is adsolutely pure, for I have so found it in many tes a male both for that company and the Urited States Government.

"Decays of the facilities that company have for obtaining perfecily pure cream of tartar, and for either rearchs dependent upon the proper proportions of the same, and the mothed of "to proporation, the Royal Baking Powder is undoubtedly the putest and most tenade beauty powder offered to the widdle

Feire Commencing building operations on a new poud to Portland from the bound.

Peter Kirk, the iron manufacturer for mery of the Mess Bis From Wirks of Laginals, who intends starting the immense iron works at Kirkland on Lake Washington, near scattle, will irrive back from Europo in a few days with infimited Lagish capatal to commence the construction of the legist steel and non works on the Pacific coast. He has so informed some of his friends in the city by letter. These rairoad but diag, operations, and the beginning of the iron industry together with the establishment of the my's jurid if Port Orchard opposite Seattle on the Port Bakeley side of the Sound, the erection of a larger number of business houses in beatile this season than ever before, the remarkable influx of people and the minner in which real extances jumping the dim the Quent day, "slow picty to near ever that the from its bere to stay. But he die to in thoughing after during the strong first Building operations in Ticoma are far ahead of the record of one previous guir, and the work of the Northern Pacine Company, which is spending nearly a milhon dollars in witer front and other improvements, is supplemented by heavy expendinares of private industrial enterprises springing up all over the miserable street car sulway service, but it is stated now that the Villard syndicite, which recently purchased the franchise originally granted to Nelson Bennett, has placed their honds in New York and will soon give the city a first-class service. It will have to be a cablo ro of to accompish that Flectire roads and steep grades are incommatible with each other, besides electric roads soon get out of order and are compisated and complex in machiners and delant, and disligate the thoroughters with a forest of golos. The cable street rulmays of beattle have been a good paying investment from the start and capital need not be timed in looking toward my estiments in that time in either of the two growing cites, or Puget sound. The system in Income purchased

## BCTING CCVP'Y

Sole Bottlers of the Gambrinus Beer and Wilhoit Mineral Water, THE TWO POPULAR DRINKS OF THE NORTHWEST.

Our city and country family trade in KNICEERBOCKER BEER is larger than that of all other Lager Beers in the market combined. It contains less alcohol. It is pure, clear, sparkling, cooling and invigorating. Shipped to families direct in any part of the country, and delivered to any point in Portland and East Portland. Telephone No. 300.

In connection with the bottling of our popular KNICKERBOCKER BEER, we have completed arrangements by which we have sole control of the famous WILHOIT SPENGS MINES L WATER, and we tak, this occasion to announce to the Drug and Soda Fountain trage and to the reople generally, of our being in he market with this, the WILHO!" WATER, about March 1st, and from that time on can furnish this WATER in bulk for fountairs, or to the trade and families in bottles. This, the MOST FAHOUS of Crepon's natural springs water, needs no recommendation to the people of the Northwest as to its virtues and healing qualities, it now having the most unqualified endorsement of the best known in the medical profession. Our KNICKERBOCKER trade mark and label is always a guarantee of a pure and genuine article.

Is superior to any malt beverage ever drank in the Northwest. We are pressed to our full capacity and are shipping to the trade in every section. Ask for it, get it, and you will stay with it.

It is especially valuable for restaurants and ships, as it is hermetically sealed, takes up but little room and is warranted to keep in any climate.

THE KNICKERBOOKER BOTTLING COMPANY, 50 FRONT STREET, PORTLAND, OREGON OR CALL ON FOR PRICES WRITE TO A. C. CHURCHILL, MANAGER.

Ever made to the Pacific Northwest was started yesterday by Russell & Co. from their large factory at Massillon, Ohio, and consigned to RUSSELL & CO. (Branch House), PORTLAND, OREGON. The immense business done by this house on the Coast is evidenced by the fact that they now prefer and find it more convenient to ship their machinery in train load lots rather than have it come in lesser quantities. This train is routed over the Baltimore & Ohio, Wisconsin Central and Northern Pacific railroads. Due notice will be given in all the newspapers along the route of the arrival of this train at the various points through which it will pass.

## HUGHES, Manager.

southdowns on Merinos Result: A better frame and partier matterier, but a corre-ponding decrease in yield of wool. Merinos will stand the hard knocks the best.

sponding decrease in yield of wool. Mermos will stand the hard knocks the best. An Indiana farmer writes that there are two rhances to make money in raising sheep to one in raising state, provided the doys do not molest your flock. At present the prices for accel and mutton, the margin in the sheep business, is small, as it is in other stands of stock; hence to featize a profit it must be managed on an cronomic basis, sheep will penerally do better on high and rolting land than cattle, and will also be better for the land, as they always leave their droppings where they do the most good and in the best possible manner. It is said of the sheep: "He never dies in debt." Sheep will do much toward ridding land of small sprouts and noxious weeds—if there is not too much of that kind of work to be done—and do it more effectually than cattle. Sheep are good "grubbers," but it is hard on them to follow it for a living. The best general-purpose sheep, to my hotton, for the average farmer, is one that has a good dash of Merina boud in it—say about had blood—on a Cot-wold or Down toundation. They make a good mutton sheep and live longer and are harder than many pure-baseds. They do better without shelter, produce an excellent quantity and quality of wool, raise as many lambs when left to themselves, and when started you can count on them making sheep—a thing I could not always do with some others. They will stand the hard knocks, and yet will respond to good treatment letter than any breed or cross-bred sheep I have ever tried.

## ARE FARMERS OVERTARED?

It is so common to read about farmers being overtained that it is taken for granted that they are so, but something is possible in the line of proof and that is the compiling the line of proof and that is the compiling of statistics to discover what proportion of state and national taxes farmers actually pay. This is necessary if there is any desire to secure equal taxation. It should not be difficult to look over the assessment books of Oregon and find the sum of taxes paid by the farmers of every county. The taxation of towns and corporations will show for themselves, and in this way it may be got at with tolerable case what amount of taxation is paid by farmers as against all others.

The internal revenue system also can be estimated to get at the approximate som that the farmer pays toward national expenses, and the same can be done in respect to vartoms dues. Under these hands the

or externs due country will come off easy as they do not include in extravagance and problems the dary and harder the market produce an excellent without shelter, produce an excellent guaratity and quality of wool, raise as many lambs when left to themselves, and when they do not include in extravagance and wines, cigars, beer, sikk and laces. E. egant globely and count on them making started you can count on them making the string in the charge of the country will come of the chary and backer where you can count on them making the string in the charge and internal revenue charges, for the course much the care in the country will come they do not include in extravagance and wines, cigars, beer, sight and laters and internal revenue charges, for the charge and internal revenue charges, for the charges for charges for charges for charges for charges for charges and internal revenue charges, for and to produce the start of the textile toward using the strikes under the later yearly, at the least, as the name of the property of the start of the critical charges of the charges of the country will come of the charges and therein who making the artifact of the charges, the charges are all out of these with the least, as the charge in the farther who pays expense and internal revenue charges, for a the country of the start of the textile in the wip to the least, as the charge in the wip to the charges, the charges are all out of the wip to the charges, the wip to the charges, the wip to the charges does not than he should toward using the string the wip to the charge of the country will a poof shoot them will be conceiv

down, the bruises healed, and the steer is good for \$50 next fail. Two crops of this sorghum hay can be caused in ordinary years, a yield of four to two tons to the acre. It leads prairie hay. On this subject Frofessor Shelton says: "Every year the great value to Kansas farmers of corn and the sorghum as hay reants is forced upon as We are consident that the salvation of the Kansas farmer, in an arricultural server, with be worked out, and not with their end trembing, either, through the adjency of these coarse, heat-laying and cloudh-residing plants. But to make the most of these for fodder, the thought must be codder. They must be planted, califyated, out up and generally handled with the sangle purpose of making hay. What we need in Kansas is a great arga of corn which has not been planted for corn, and a great crop of sorghum which does not squint toward notasses."

## BEEF AND BUTTER.

Mr. Henry Stewart, the well known writer upon stock feeding and kindred subjects, says in the bairy World that he Baires there says in the Inity World that he thinks there is no good reason why a farmer should not combine the dairy and hedrearon; together. The cows must be kept to rear the calves. Then why not keep good native cows, such as can be made to produce 200 pounts of batter yearity at the least, and cross them with a good shorthern heilf of mikking farmily to Frincess built for assumed, and rear heilfer allyes for cows, and the made cive-for beed, bedfing them with the warm of skimmen, milk and a bleval ration of bran ancrorer thread, and pushing them on together, to consude at a year old and 1900 at two able meshall years, and turning them off at a cool to fift. This requires good manging that it can be done, because it has
